

Comparison Tables

The tables below summarise material covered earlier. Each column lines up so the figures can be compared down the page.

Properties of the Inner Planets

Planet	Radius	Moons	Day length
Mercury	2440 km	0	1408 h
Venus	6052 km	0	5832 h
Earth	6371 km	1	24 h
Mars	3390 km	2	25 h

Reaction Rates by Temperature

Temperature	Rate	Notes
10 C	Slow	Few collisions
25 C	Moderate	Room standard
40 C	Fast	More collisions
60 C	Very fast	High energy
80 C	Rapid	Near boiling
